workflow software

Slide-switch operation

POCKET MEMO

LFH9380

Get more done in less time

with digital dictation

You grew fond of your tape-based recorder but want to increase efficiency? This is where the Pocket Memo 9380 comes into play. With the professional slide switch you can hold on to your working habits and enhance your dictation workflow.

Superior audio quality

- High recording quality in DSS format
- High-quality built-in microphone for excellent sound quality

Enhance your productivity

- SpeechExec workflow software for easy data management
- Professional editing via slide-switch operation
- Priority setting for getting urgent jobs processed first
- Automatic file download via USB for quick transcription

Designed for professionals

- Exchangeable memory card for unlimited recording
- Lightweight metal body for convenient working
- Direct charging via USB for economical recording
- Voice-activation function for hands-free recording

PHILIPS

Highlights

Exchangeable memory card

Virtually unlimited recording capacity thanks to an exchangeable memory card.

High-quality microphone

The high-quality microphone delivers increased recording sensitivity and excellent sound quality.

Professional editing functions

Easy and fast file editing (insert, overwrite, append) via convenient slide switch.

Automatic download via USB

When plugged in, the Pocket Memo dictation recorder automatically downloads your audio files directly onto the computer.

Lightweight metal body

The ergonomically shaped lightweight metal body is ideal for convenient working over longer periods of time.

SpeechExec workflow software

SpeechExec sends your recordings to your assistant for transcription and allows you to monitor the status of your work.

High recording quality in DSS

The DSS format was developed for the use in digital voice recorders, achieving a high compression ratio with little loss of quality. The DSS format also allows you to store additional information in the file header, which facilitates the organization and the transcription of dictation files.

Priority setting

With the included priority setting option, urgent recordings get processed first.

Direct charging via USB

Help protect the environment by simply recharging the batteries of your device using USB instead of buying new batteries.

Specifications

Connectivity
